MEMORANDUM FOR:

SUBJECT : U.S. versus International Business Machines Corporation - Production of Documents

REFERENCE : My memo dtd 15 November 1973, same subject. (OJCS-1335-73)

1. The referenced memorandum contained a list of sixteen classified documents which was prepared in response to the Executive Director-Comptroller's memorandum dated 4 April 1972.

2. These documents have been reviewed by our Security Officer with the result that I have authorized the outright declassification of twelve documents and the release of the remaining four documents following the deletion of information relating to intelligence sources and methods.

3. During this exercise, every attempt was made to avoid prejudicing the Government's anti-trust action while still protecting sensitive intelligence sources and methods.

4. Attached is a list of the twelve documents which have been declassified in their entirety. A second list is also attached which identifies the four documents from which information was deleted. This second list includes a brief description of the information deleted from each of the four documents.
